Experience

Senior Software Developer **Quilo Solutions** *New York, USA* **04/2025 - 8/2026**

- Collaborated closely with the CEO on product development and was part of the core engineering team, contributing to the development of multiple products for the organization.
- Led a team of three developers, assigning tasks and ensuring timely delivery through effective project management.
- Took ownership of architectural design decisions, ensuring scalable and maintainable solutions across projects.
- React js, Next js, Javascript, Typescript, React Native, Tailwind CSS, Redux, CSS, SCSS, HTML, Node js, Cordova, Express js, Python, Django, Django Rest Framework, Flask, Fast API, JavaScript, Retell, Livekit, Stripe, Open AI, Deepseek, Docker, Kubectl, PSQL

Senior Software Developer **Ticket Broker List** *New York, USA* **03/2023 - 01/2025**

- Code collaboratively planned and meticulously designed the architecture for the application in coordination with the development team. This involved analyzing requirements, considering **scalability**, and ensuring **system robustness**.
- Single-handedly executed the migration process of the entire business **Chrome extensions from v2 to v3**. This involved thoroughly analyzing the required changes, **refactoring code**, and **ensuring compatibility** with the latest version.
- Established and maintained regular, **proactive communication** channels, engaging with clients daily. Conducted presentations and delivered impressive demonstrations of various **proof of concepts (POCs)** to showcase the capabilities and potential of the application.
- Developed and deployed mobile applications using React Native (Expo) and Cordova for various projects, ensuring cross-platform compatibility and optimal performance.
- React js, Next js, Javascript, Typescript, React Native, Expo Tailwind CSS, Redux, CSS, SCSS, HTML, Node js, Cordova, Express js, Python, Django, Django Rest Framework, Fast API, Flask, JavaScript, Bootstrap4, PSQL, Docker, Kubectl, PSQL, Git, Jira

Software Developer **Infoware** *Gujarat, India* **11/2022 - 02/2023**

- I was accountable for enhancing **Search Engine Optimization** (SEO) for several prominent websites, significantly improving their audit score from **6% to 98%**. This accomplishment led to a commendable surge in traffic, with an approximate **increase of 34%**.
- In addition to collaboratively **planning** and meticulously **designing the architecture** for the application, I swiftly integrated crucial business features that played a pivotal role in driving growth and success.
- Furthermore, as part of my responsibilities, I ensured the timely **delivery of project** milestones after each sprint. This involved closely monitoring the progress of development tasks, coordinating with the team to **address any roadblocks, and implementing efficient project management strategies.**
- React js, Next js, Javascript, Typescript, React Native, Expo MUI, Redux, CSS, SCSS, HTML, Node js, Express js, Python, Django, Django Rest Framework

React Engineer **TechStuff** *Madhya Pradesh, India* **07/2022 - 10/2022**

- I have experience with technologies like **bit.dev, Fauna DB, and GraphQL**, enabling me to develop scalable and modular solutions while emphasizing code reusability and efficient data querying.
- I have utilized **mono-repo** and **nx** to manage multiple applications within a single repository, simplifying development processes and promoting consistent code sharing.
- React js, Next js, Javascript, Typescript, MUI, Redux, CSS, SCSS, HTML, Node js, Express js, Python, Cordova

Associate Application Developer **Smilebots** *Chhattisgarh, India* **07/2021 - 07/2022**

- Facilitated **direct communication with the client** to incorporate additional features and implement changes to the application.
- Managed main branch merges and maintenance, ensuring code integrity and smooth collaboration.
- Conducted project orientations for newcomers, facilitating seamless integration into the team.
- React js, Javascript, Typescript, MUI, Redux, CSS, SCSS, HTML, Node js, Express js, Python, Cordova

Software Developer **Freelance** *Remote* **01/2020 - 06/2021**

- Demonstrated expertise in front-end styling while consistently delivering modern, performant, and robust code for various client projects, including notable clients such as Forest Night, Sincity Map, and Voxis.
- Built and maintained cross-platform mobile applications using React Native (Expo) and Cordova for multiple company projects.
- React js, Next js, Javascript, Typescript, Tailwind CSS, Redux, CSS, SCSS, HTML, Node js, Express js, Python, Cordova, Django, Django Rest Framework, Fast API, JavaScript, Bootstrap4, PSQL, Docker, Kubectl, PSQL, Git, Jira, Shad cn

Skills

- React | Next.js | Cordova | JavaScript | TypeScript | Redux | NoSQL | Firebase | SQL | Node.js | Express.js | Git | Python | React Native | CSS | HTML | MongoDB | PostgreSQL | Docker | Kubernetes | GraphQL | REST API | WebSockets | Tailwind CSS | Bootstrap | SASS | Vite | Webpack | Babel | Flask | Jest | Cypress | Mocha | Puppeteer | Playwright | AWS | GCP | Azure | CI/CD | Linux | Nginx | Redis | LangChain | Prisma | Sequelize | Supabase | OAuth | RAG | Model Context Protocol | JWT | Passport.js | OpenAI API | Stripe API | Socket.io | Figma | Azure
- Microservices | CI/CD | Frontend | Backend | Full-Stack | English, Hindi, Assamese – *All professional proficiency or above*

Education

Bachelor of Computer Science **Kaziranga University** *Jorhat, Assam* **06/2020 - 06/2024**

- Major in Computer Engineering

Projects

- **Rtube**: Developed a YouTube clone application using **YouTube API 3**, leveraging technologies such as **React, Redux, Firebase, Google Auth, SCSS, Axios,** and other relevant tools for a seamless online video browsing experience.
- **Portfolio Website**: Created a professional portfolio to showcase my projects and skills as a developer, employing GatsbyJS, SCSS, Framer Motion, and other relevant technologies.

Publications & Contributions

- **Personal Website:** anshumantalukdar.netlify.app
- **Blogs & Technical Writings:**
  - Blog Homepage
  - Integrating Clerk Authentication with Next.js & Syncing Users to Database
- **Open Source Contributions:**
  - Design Wave
  - Mira
  - Medusa.js Contribution
- **Alternative Portfolio Website:** anshuman-site.vercel.app
